26 April 1968

MEMORANDUM FOR: Mr. Duckett

25X1A [ ] called to say that the responsibility placed on the DDS to come up with a single contract information system in response to Col. White's approval of the modified recommendations of the Livingston Report on 28 March 1968 was moving along. 25X1A [ ] reckons they do not really have the system yet, but he feels it is about time to start moving in hopes of having a terminal or two in operation by the end of this year. I told him I thought this was good, that I would mention it to you, 25X1A and suggested he call [ ] for any further assistance which he might need from S&T.
